

Clément SANTACREU

MSc Information Systems & Digital Innovation • HEC Lausanne

6-month internship from Sept. 2027 onwards • Software • Data / AI • Integration

I build software that people actually use, from client needs and design through to code and delivery. Co-founder of Omniscient (La Forge, EPFL), I've delivered custom SaaS for businesses. In my MSc, I'm learning software architecture, data science and machine learning, and data integration: connecting data, interfaces, and business needs.

EDUCATION

BORN • NATIONALITY

March 20, 2005 in Thonon-les-Bains • French

EXPERIENCE

Co-founder

Sept. 2025 – Sept. 2026

Omniscient, incubated at La Forge (EPFL) • Lausanne

- Co-founded a custom software services company building bespoke SaaS for businesses, including Swiss brands.
- End-to-end involvement: client needs assessment, interface design, development and delivery.
- Analyzed our social media data to improve performance; created a real-time analytics tool connected via API.
- Omniscient featured on BFM Business (Paroles d'Entreprises), June 2026.
- Shares divested after one year to focus on my Master's degree.

IT / Design & Communications Lead

March 2024 – Sept. 2026

Blockchain Student Association • EPFL, Lausanne

- Graphic design and front-end development of association materials and interface.
- Designed posters for all events and visual promotion of EPFL blockchain activities; participated in ecosystem conferences and Sui hackathon.
